Subject: FYI: Draft responses for technical support.docx

Ex. 5 Deliberative Process (DP)

We probably will have to set a meeting to discuss with NRMRL. I know that Jennifer's concern is that NERL will exceed its capacity for the workload.

Hi Jennifer,

Attached are the draft responses we prepared. I added the new NC DEQ requests. In a nutshell, NC is set. Mark stated that adding some samples either from Carolina Beach or Chemours should not add a lot to the current workload as we are set-up. New Hampshire will need some more planning and coordination as Las Vegas will have to set-up. John Washington and Mark Strynar are working on acquiring more standards (we are running low on those). Hopefully the drafts will help with the final response.

Have a good weekend!
